

LEATHER SINCE 1933

Brenta

Crafted in Italy by a 155 year old tannery on large German raw material, Brenta offers a distinctive aesthetic that exudes a rich and timeless elegance. An innovative tannage and meticulous milling creates a hand that is surprisingly soft and supple. A vibrant pull up effect, and bold texture offers striking contrasts in color in the peaks and valley of the grain. This leather soft hand and rich worn aesthetic will only be enhanced thru wear and use making it a leather that can be enjoyed for generations.
