

LEATHER SINCE 1933

Colonade

Designed on European raw material, Colonade illustrates how a minimal approach during tanning can often be better when it comes to bringing out the rich characteristics of leather. During tannage, hides are vacuumed dried to give them a tight round hand. They are then dressed with a clear paraffin wax to give the leather's surface added depth and subtle polish.

FEATURES

- Natural aniline
- Tight grain
- Dressed with clear waxes
- Natural markings will be present

COUNTRY OF ORIGIN

Italy

TANNAGE

Chrome

FINISH

Pure Aniline

CHARACTER
