

LEATHER SINCE 1933

Madrid

Crafted in Spain in a palette of rich, saturated colors, Madrid is an olive tanned leather with a natural aesthetic that shows off all of the inherent markings and unique characteristics of the hides. After tanning, hides are finished with natural oils with water-soluble lacquer bases to achieve a brilliant polished surface and eye-catching color transparency that immediately draws you in. Madrid is part of our Olive Tanned collection and is Declare, Red List free. **The Olive Tanned collection was the winner IIDA/HD Product Design Competition - 2017** Learn More About the Olive Tanned Collection
