

LEATHER SINCE 1933

Malachite

Malachite is an expressive transfer pattern inspired by the natural movement and layered banding of malachite stone. Fluid, organic lines flow across the surface, creating a sense of depth and motion reminiscent of the stone's distinctive mineral formations. Available in a range of suede base colors and transfer tones, Malachite can feel softly tonal or more dramatic depending on the combination.

FEATURES

- A soft, drapery aniline suede
- Extensive color palette
- Luxurious tracking effect
- Water resistant properties

AVG. HIDE SIZE

16 - 18 SF

AVG. THICKNESS
