

LEATHER SINCE 1933

Prairie

A luxurious suede from the finest suede tannery located in Valencia, Spain. The leather goes through a treatment in the tanning process, which imparts water repellency properties from face to front for better and easier maintainability. A unique transfer process is applied to the leather with heat and pressure to create a pattern representative of grass cloth while maintaining the beautiful properties of the suede. This is made to order. Production time is 2-3 weeks. Samples are stocked in limited quantity and may not be immediately available.

FEATURES

- Rich, saturated color with water repellent tannage
- Luxurious short nap
- Grass cloth pattern
