

# Providence

Crafted in Italy on European raw material, Providence is one of this season's most striking standouts. A unique tannage imparts each hide with a remarkably round and full bodied hand that draws you in immediately. A subtle tracking effect on the leather's surface also captivates the eye, further enhancing this leather's visual appeal. The end result is a leather that exudes authentic, understated luxury and opulent elegance.

## FEATURES

- Full grain, aniline dyed
- Soft, round hand
- Casual aesthetic
- Natural markings will be visible
