

LEATHER SINCE 1933

Teju Lizard

Teju Lizard features an exotic pattern on our satin suede that emulates the teju lizard of the desert. A luxurious suede from the finest suede tannery located in Valencia, Spain. The leather goes through a treatment in the tanning process, which imparts water repellency properties from face to front for better and easier maintainability. A unique transfer process is applied to the leather with heat and pressure to create a modern, angled variation of a Scottish tartan plaid while maintaining the beautiful properties of the suede. A unique heat-transfer process allows for any color combination to be firmly embedded on the leather's surface with the most intricate of detail. A modern interpretation of a trendy, sought-after design, the suede's soft nap combined with the pattern's metallic sheen results in a leather that is overwhelmingly appealing to the eye and to the touch. This is made to order. Production time is 2-3 weeks. Samples are stocked in limited quantity and may not be immediately available.
