

LEATHER SINCE 1933

Valdesa

Crafted in Italy from New Zealand sheepskin, Valdesa is one of this season's most striking standouts. Tanned exclusively from vegetable extracts, it features a unique washing process during tanning that imparts it with a beautiful, authentically aged appearance. This process also shrinks the hides slightly to accentuate their natural grain and adds elements of alluring texture to the surface. The end result is a soft and drapey leather with a genuine worn-in aesthetic that exudes classic style and timeless appeal.

Small minimum order quantities may apply.
