

LEATHER SINCE 1933

Winchester

Rich, rustic elegance describes this leather from India that is dressed with wax and oil, then milled and polished. This leather's burnished, polished surface is complemented by a velvety texture that will become more visually appealing with age and with wear. Winchester is prized by designers, due to its ability to be tailored beautifully on a variety of frames.

FEATURES

- Combination wax/oil tannage
- Polished surface
- Milled for extra softness
