Custom Parchment Wall Panels

PRODUCT INSPIRATION

Refined, Soulful, & Impossible to Replicate

M O O R E & G I L E S[®]

Parchment is one of the oldest materials in the decorative arts, rooted in centuries of craftsmanship and reimagined for modern interiors.

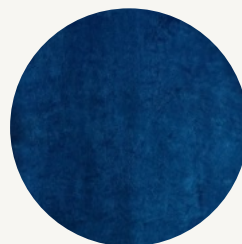

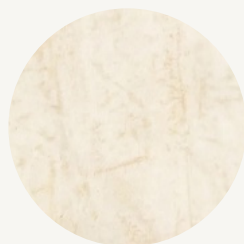

Custom Leather Parchment Wall Panels

Parchment is a natural material crafted from hides, valued for its soft translucency, tonal depth, and enduring beauty. Each hide is softened, stretched, and worked by hand, allowing its natural variation to emerge with subtle clouding, tonal movement, and organic markings that make each panel entirely unique. Color is layered slowly, then sealed beneath multiple coats of finish, creating a surface with depth and quiet luminosity.

The result is something that lives between material and art; refined, soulful, and impossible to replicate.

Each parchment hide is soaked for pliability, stretched over a wood panel, and hand-dyed one by one. Each panel is finished with 10+ coats of a water-based clear finish. Sanding between each coat creates a smooth finish and hand. Additional coats can create an even smoother, higher-gloss finish, while fewer coats create a matte product.

We can achieve any color. Panel size, layout, and finish level are all customizable. Expect natural variation, depth and movement, and a truly one-of-a-kind installation.
